SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS-No	Weight %*
Distillates (Petroleum), Hydrotreated Light	64742-47-8	100

SECTION 4. FIRST-AID MEASURES

First aid measures for different exposure routes

General advice	Avoid contact with eyes, skin, and clothing. Avoid breathing, vapors, mist, or gas.
Eye contact	Flush thoroughly with water. If irritation occurs, get medical assistance.
Skin contact	Wash contact areas with soap and water. Remove contaminated clothing. Launder contaminated clothing before reuse.
Inhalation	Remove from further exposure. For those providing assistance, avoid exposure to yourself or others. Use adequate respiratory protection. If respiratory irritation, dizziness, nausea, or unconsciousness occurs, seek immediate medical assistance. If breathing has stopped, assist ventilation with a mechanical device or use mouth-to-mouth resuscitation.
Ingestion	Seek immediate medical attention. Do not induce vomiting.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media	Use water fog, foam, dry chemical or carbon dioxide (CO ₂) to extinguish flames.
Unsuitable Extinguishing Media	Straight streams of water.
Specific hazards during firefighting	Do not allow run-off from fire fighting to enter drains or water courses.
Specific extinguishing methods	Evacuate area. Prevent runoff from fire control or dilution from entering streams, sewers, or drinking water supply. Use a water spray to cool fully closed containers.
Protective Equipment and Precautions for Firefighters	Firefighters should use standard protective equipment and in enclosed spaces, self-contained breathing apparatus (SCBA). Use water spray to cool fire exposed surfaces and to protect personnel.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions	Eliminate all ignition sources. Maintain adequate ventilation to keep the exposure levels below the DELS.
Environmental precautions	Report spills as required by local and federal regulations. Avoid contaminating ground and surface water
Methods for Containment	Prevent further leakage or spillage if safe to do so. Dike spill area to contain liquid.
Methods for cleaning up	Contain liquid and collect with a non-combustible material.

SECTION 7. HANDLING AND STORAGE

Precautions for safe handling	
Advice on safe handling	Avoid contact with skin. Prevent small spills and leakage to avoid slip hazard. Material can accumulate static charges which may cause an electrical spark (ignition source). Use proper bonding and/or ground procedures. However, bonding and grounds may not eliminate the hazard from static accumulation.
Conditions for safe storage, including any incompatibilities	
Technical measures/Storage conditions	Keep containers tightly closed in a cool, well-ventilated place.

Individual protection measures, such as personal protective equipment.

General information	Eye bath. Safety shower. Washing facilities.
Eye/Face Protection	Safety glasses with side-shields.
Skin and body protection	Chemical resistant apron. Protective gloves.
Respiratory protection	If engineering controls do not maintain airborne contaminant concentrations at a level which is adequate to protect worker health, an approved respirator may be appropriate. Respirator selection, use, and maintenance must be in accordance with regulatory requirements, if applicable.
Hygiene measures	Handle in accordance with good industrial hygiene and safety practice.
